Â

As the creator of DanielleLaPorte.com--deemed "the best place online for kick-ass spirituality," Danielle LaPorte's straight-talk life-and-livelihood sermons have been read by over one million people. Bold but empathetic, she reframes popular self-help and success concepts:

Â

- : Life balance is a myth, and the pursuit of it is causing us more stress then the craving for balance itself.
- : Being well-rounded is over-rated. When you focus on developing your true strengths, you enter your mastery zone.
- : Screw your principles (they might be holding you back).
- : We have ambition backwards. Getting clear on how you want to feel in your life + work is more important than setting goals. It's the most potent form of clarity that you can have, and it's what leads to true fulfillment.
